

IT'S SUSTAINABLE HOUSE DAY AT CRACE.

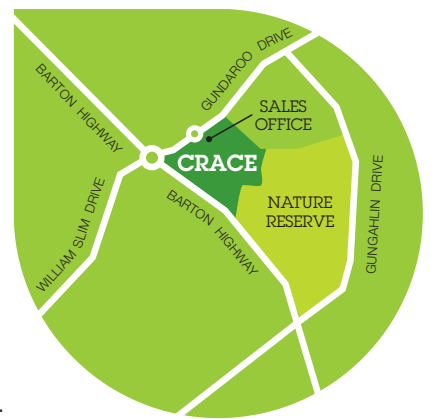

10AM TO 5PM SUNDAY 11 SEPTEMBER.

Ask for your Crace Sustainability Showbag. First 200 visitors only!

There's one big topic for Sustainable House Day this weekend. It's all about building sustainably. And where better to learn about it than the Crace HIA GreenSmart® Demonstration Village? All our builders' display homes showcase the best in green ideas and our great line-up of speakers will have plenty of tips to share. Plus our Sustainable September markets have great eco-friendly bargains.

- Meet Jane Hall from Network Ten's The Circle and join her workshops on design and decorating for the home. Bring along a piece from your own junk collection and get some tips on how to turn it from shabby to chic.
- Hear talks from sustainability experts in our nine exciting display homes.
- Tour our Demonstration Village with Nick Gorrie of James Hardie and see how Scyon lightweight building products help you build more sustainably.

- Shop for spring blooms, books, eco-friendly beauty, yummy cakes and more at our Sustainable September markets (10.30am to 1.00pm).

For more details, phone 1800 751 878 or visit crace.com.au
